ABOUT

Creative, and detail-oriented web design professional skilled at developing different web pages from start to finish, generating original graphic content, motion graphics, print collateral. Effective team player with strong time management skills; collaborative and quick to understand challenges with immediate creative solutions.

WORK EXPERIENCE

Flux Branding (JAN. 2016-2019)

Digital Designer

- Managed the development of creative materials from conception through production.
- Worked on the development of new original apps & websites for multiple SMB companies, ensuring the clients' brand requirements were always met.
- Created Sitemaps, Wireframes and Mockups for Apps, Websites, VR & AR based on brand research and development.
- Collaborated with copywriters and graphic artists to create digital content and graphic designs from start to finish; designed images, icons, banners, etc.
- Worked closely with developers and provided HTML, CSS, Javascript prototypes of featured content or non-codebase working examples designed and animated in programs such as Framer & InVision.
- Registered domain names, created instances of Wordpress in a dev working environment, prepared email accounts and connected to GIT.
- Worked with video production director and team creating storyboards. Collected all video footage and final cut video-branded content that would be used for broadcast, video segments for company's homepages, animated gifs, and video for client's social channels.

P2

- Involved in the creation of motion graphics and overall look and feel for video content. Researched web trends for creating vector motion graphics that would work across desktop and mobile.
- Collaborated with the tech team and marketing department to update websites and increase client experience and satisfaction. Worked with programmers to improve website functionality and identify potential threats.
- Worked in a variety of platforms when creating websites: Wordpress, Shopify, Webflow and Pinegrow, Angular JS, Wix

ScreenPush (JAN. 2011-2014)

Creative Development

- Identified and initiated work or developed existing briefs to improve quality of output. Worked closely with the Social Media team on a variety of Ad Campaigns.
- Created original content from established brands and deployed it across multiple social platforms.
- Collaborated with lead Brand Strategist to produce Sitemaps, Wireframes and Mockups.
- Created new design themes for clientele in support of video editor exclusively for stand-alone purposes.
- Successfully managed and coordinated design projects from concept through completion.
- Created designs and layouts for Billboards, Posters, Magazine Ads, Newsletters, Mailers, Postcards, Banners, Forms, PowerPoint/Keynote Presentations, and Web graphics assets.

Omelet. (JAN. 2010-2011)

Animation

- Animated characters & backgrounds with basic Javascript and delivered final scenes for interactive games.
- Coordinated and organized projects between managers, designers, editors, and out-of-state developers.
- Worked with illustrators to achieve clean breakdown of flat illustrated artwork into timeline-based elements to animate full interactive animated scenes.
- Developing and improving hand-drawn assets for animation.
